

Financial Wellness and College Success

Project Title	Financial Wellness and College Success
Project Summary	Identify evidenced based research on successful approaches to help students make good financial decisions starting with paying for college, succeeding in school,entering the workforce,and repaying student loans.
Country	United States
Country/Region of Focus	United States

Project Description

Postsecondary education is essential to the economic health of our nation and to the economic opportunity of many Americans. Investigate and maintain an inventory of research that identifies effective practices to improve the financial capability of students as they make decisions about applying to and paying for college. What financial concepts should students understand, when and where opportunities to impact students, and how can these interventions be measured?

Federal Student Aid is a principal office of the U.S. Department of Education which seeks to ensure that all eligible individuals can benefit from federal financial assistance for education beyond high school.
